Quick Write...

Think of a time when you felt left out or like you didn't belong...describe what happened and how you felt...

I felt left out when I first came to Fort St. John. I felt scared and sick. I felt sick because of the plane ride. I was scared because I didn't know anyone from Fort St. John. The routines were different from my old school and when I went in the halls I felt alone then ever. When it was recess we always had a inside day because it was to cold. I would always put my head down on my desk because no one would play with me. That was the very first time I felt very lonely.

This reminds me of when I got my New teacher even now My teacher is awesome my friends felt like they were drifting away. I miss them so much now we don't play together & really see each other and talk to each other. but we still are friends and we still like each other. Opi I getting of track ok so we didn't really talk to each other & big have fun!!

Think of a time when you felt left out or like you didn't belong...describe what happened and how you felt...

When my dad had a party he only listened to his
friends and payed attention to them only, he was
so busy with his friends, he doesn't have time
for me. 😞 My dad also told me that his friend's
<small>Cousin he was a rich family his parents didn't care what he did and he died.</small>
when I felt like didn't feel like belonged is when my parents
don't want to watch a great movie with me
because they said that they didn't like it
and when I chose another movie they said they
didn't wanna watch, so yeah

Think of a time when you felt left out or like you didn't belong...describe what happened and how you felt...

A time when I didn't belong was when
I was lonely outside and I was
playing and some one told me to not to
play because I was in Kindergarten
and they were in grade 4 so I had
no one to play with and I
was lonely outside wasting
my time and I was bored.

Think of a time when you felt left out or like you didn't belong...describe what happened and how you felt...

When I was in grade
two there was a kid. Her name
is Lexi she was mean to me
for an entire year. When she
was mean to me I felt
like I didnt belong. but
when I stood up for my
self I felt proud and strong.
